INTER-OFFICE CORRESPONDENCE

RICHMOND, VIRGINIA

To: Foreign Patent Subcommittee Date: March 26, 1985

From: R. B. Seligman

Subject: TMCI - PM 1183/USSN 613935

At the last Foreign Patent Subcommittee Meeting, we discussed the subject patent. I was to poll the TTG members to determine where this patent should be filed.

This has been done, and the following list generated, which you will find attached. The list is inordinantly long, and I believe should be pared.

Please be prepared to discuss this at our next meeting.
